(POST)DEVELOPMENT GEOGRAPHIES: CRITICAL PERSPECTIVES ON FUTEBOL AND TURISMO

14/04
duemilaventitrè

Speakers: **Rafael Balieiro Crestani** and **Ana Gabriela da Cruz Fontoura**
(Master in Local Development, Unipd)

Discussants: **Mariasole Pepa** (Unieversity of Padua) and **Amandine Chapuis**
(Université Paris-Est Créteil)

*Starting from the lesson learnt from Brazilian geographer **Milton Santos**, the idea of território will be explored and will be grounded in two different experiences in the context of contemporary Brazil. The first will discuss **soccer and globalisation**, while a second will present the role of **community-based tourism**.*

The goal is to show that understanding soccer and tourism 'geographically' reveals much more complicated development dynamics than what is generically presented in common discourse.

*The event is supported by the learning community of the **Master in Local Development**, including students and professors, and is open to anyone interested in the way geography matters to alternatives to mainstream conceptualization of development.*

The event will be held in English with a Latin American accent!

Please book your seat at: https://Post_development_geographies.eventbrite.it

Ore 18 - 19.30

Museo di Geografia
Via del Santo, 26
Padova

The event is part of
**The International Night
of Geography 2023**
